RESPONSE TO NOTICE OF INCOMPLETE RESPONSE

BOX MISSING PARTS
ASSISTANT COMMISSIONER OF PATENTS
WASHINGTON, D.C. 20231

Dear Sir:

Applicants hereby respond to the above-stated communication which indicates the absence of a signature of inventor Dennis Just. Documents submitted and discussed herein below will clarify that the circumstances surrounding the absence of Dr. Just's signature was inadequately explained in the response to the Notice To File Missing Parts which was filed on July 14, 1999, and that the absence of the signature of Dr. Just on the Declaration and Power of Attorney should not pose an obstacle to the further processing of the present Application to the pending status for purposes of examination.

In particular, inventor Just was named as a co-applicant in parent Application Serial No. 08/768,167, filed December 13, 1996, from which the present Application is a Continuation-in-Part. In the processing of the parent Application for the formal grant of filing date and establishment of pendency, Applicant by their representative submitted on September 3, 1997, a Petition Under 35 USC §118 and 1.47(a) establishing the completion of the filing requirements by the execution of the remaining co-inventors, then John W. Liskowitz and Methi Wecharatana. This Petition set forth in relevant part, that Dr. Just was contacted and requested to execute a Declaration and Power of Attorney to complete filing requirements. Dr. Just did not respond to this request and instead, correspondence was received from Dr. Just's employer indicating that Dr. Just would not be permitted to execute the Declaration. The full text of the Petition and the documents that accompanied it are attached hereto for review. The circumstances regarding Dr. Just and the company Union Process remain the same, and efforts to contact Dr. Just have met with failure.

As the circumstances surrounding the refusal of Dr. Just to execute the Declaration were previously determined by the Patent and Trademark Office to justify the continued processing of the present Application and the determination that the signature of the remaining co-inventors constituted a satisfaction of the requirement for execution of the Application, such relief is believed to be in order in the present instance as well in view of the relationship of the Applications and the underlying subject matter. Accordingly, Applicants believe that the attached documents and the present response constitute a proper and adequate response and resolution of the issues raised in the Notice of Incomplete

PATENT

Response, and accordingly request the further and favorable processing of the present
Application to the pending roles and the commencement of the prosecution hereof.

Dear Dr. Just:

Further to our letter of December 6, 1996, we advise that we have received the Notice to File Missing Parts of Application dated March 3, 1997 in the above-identified Application. A copy of the Notice is enclosed.

We enclose the following formal papers for execution: a) Declaration and Power of Attorney and b) Assignment.

Please review the Application, a copy of which was forwarded in our letter of December 6, 1996. When the review has been completed, please execute the Declaration using blue ink in the appropriate place, making sure that the date of execution is included at the time of signing the Declaration. After the Declaration is executed, you should sign and date the Assignment, which should be notarized.

Please note that the deadline for filing the formal papers with the U.S. Patent and Trademark

Union Process Inc.

Office before incurring time extension fees is **May 3, 1997**.

With respect to the Application, your attention is directed to the conditions for patentability as set forth in Section 102 of Part 35 of the United States Code which, in part, requires that the subject invention was never known or used in the United States of America before the invention was made, or patented or described in any printed publication in any country before the invention was made (or more than one year prior to this Application), or in public use or on sale in the United States more than one year prior to this Application.

Section 102 also requires that the invention has not been patented or made the subject of an inventors' certificate issued before the date of this Application, in any country foreign to the U.S. on any Application filed by the inventors or their legal representatives or assigns more than 12 months prior to this Application. You should understand that the expression "date of this Application" as used above actually refers to the date on which this Application was filed with the U.S. Patent and Trademark Office, *i.e.*, December 13, 1996.

The above comments are offered for your consideration at this time, as the Declaration and Power of Attorney form that you will execute is a representation under penalty of law that you are aware of the foregoing conditions for patentability and that the subject matter of this Application, in your belief, meets these conditions.

Very truly yours,

KLAUBER & JACKSON

RE: John W. Liskowitz, et al. (Your Reference 715-1-060)

We are in receipt of your letter and the accompanying documents dated March 12, 1997. As I indicated in my fax of December 13, 1996, we have some serious concerns whether Denny Just can sign these documents as Inventor. In addition, by contract, an invention by Denny Just is assignable to Union Process. At this time, Union Process has no desire to assign any patent rights.

We also note the comments in your letter regarding the implications of signing the Declaration, and we are aware of the importance of accuracy in representations made in a document of this type. In that regard, as noted above and in my letter of December 13, 1996, we believe there are some areas which need to be carefully examined.

If you wish to pursue this further, we must request that you reimburse us for the legal fees involved in having this matter reviewed by our patent attorneys, as well as for our time involved in checking through our records.

Sincerely,

Arno Szegvari
President
